

Any NFL executive will tell you that the key to co

Publicado por zhangzk - 29 Sep 2019 03:51

It becomes increasingly challenging to achieve this goal the more talented that your team becomes. We have seen this in the regression of Super Bowl teams like the Green Bay Packers and Seattle Seahawks [Benny Snell Jr. Jersey](#) , who have been unable to retain all their good players. An additional challenge in recent years has been the rising cost of talented quarterbacks. It is not uncommon for one's signal caller to take up a tenth of the team's payroll, all for one player out of 53. While things like the franchise tag have been adapted to assist in these calculations, the fact is that getting a "team friendly" contract for a franchise quarterback is paramount in building a championship team. As such, this list will count down seven bargain quarterback contracts [Zach Gentry Jersey](#) , and eight that are too exorbitant. By looking at this list as a whole, the reader should begin to understand how much a quarterback's pay (and the performance that they get back for said pay) can contribute to how successful an overall franchise can be. If you can think of any quarterback contracts which are bargains (or perhaps just the opposite) that didn't make our list, feel free to mention them in the comments. Back in 2002, the NFL officially expanded to 32 teams when the Houston Texans joined the fold. The Texans replaced the Oilers [Nick Bosa Jersey](#) , who now play in Nashville as the Tennessee Titans. It was exciting for a lot of the folks in Texas that missed pro football, but didn't want to root for the Cowboys. Despite being thrown into the fire with little help on the expansion front, the Texans have had some decent success after riding out the storm early. Since 2011, the Texans have won four AFC South championships [L.J. Collier Jersey](#) , and the future looks bright with a solid overall defense that includes J.J. Watt and JaDeveon Clowney. With all of the defensive stars that they have had, one position that has always seemed to elude Houston is at quarterback. In 15 seasons, the Texans have trotted out 14 different quarterbacks, starting with David Carr [Marquise Blair Jersey](#) , the team's first ever draft selection. Where does Carr rank among the 14 quarterbacks? We take a look at every QB that has started at least one game for the Texans and rank them from worst to first. We don't take their overall careers into consideration, instead focusing on their time with Houston. Here is our list.
